NOAA Seeking Public Comments on Amendment to Establish Marine Protected Areas for Snapper-Grouper in U.S. Federal Waters of the South Atlantic

NOAA's National Marine Fisheries Service (NOAA Fisheries Service) has published a Notice of Availability (NOA) in the *Federal Register* of Amendment 14 to the South Atlantic Snapper Grouper Fishery Management Plan (FMP). The South Atlantic Fishery Management Council (Council) has submitted Amendment 14 and associated Final Environmental Impact Statement for review, approval, and implementation by NOAA Fisheries Service. The public comment period is open through August 5, 2008.

The amendment would establish eight Type 2 Marine Protected Areas (MPAs) in federal waters ranging from North Carolina to Florida (see Figure 1). Within the MPAs fishing for or retention of snapper grouper species would be prohibited but other types of legal fishing would be allowed. The prohibition on possession would not apply to a person aboard a vessel that is in transit with fishing gear appropriately stowed.

The primary purpose of implementing these MPAs is to protect a portion of the population and habitat of long-lived, deep-water snapper grouper species (speckled hind, snowy grouper, warsaw grouper, yellowedge grouper, misty grouper, golden tilefish, and blue-line tilefish) from directed fishing pressure to achieve a more natural sex ratio, age, and size structure, while minimizing adverse social and economic effects.

Request for Comments

Written comments on this amendment must be received no later than 5 p.m., Eastern time, on August 5, 2008. In order to be considered by NOAA Fisheries Service in its decision to approve, disapprove, or partially approve Amendment 14. See the **Addresses** section for information on where and how to submit comments.
