BP Oil Spill: NOAA Re-opens Federal Waters off the Florida Panhandle to Commercial and Recreational Finfish Fishing

Effective **August 10, 2010 at 6 p.m. eastern time** (5 p.m. central time), NOAA will reopen to **finfish harvest only**, 5,144 square miles (13,323 sq km) of area it had previously closed to commercial and recreational fishing in the Gulf of Mexico in response to the BP/Deepwater Horizon oil spill. Fishing for non-fish species, such as shrimp, is still prohibited in this area.

documented in the area since July 3. Trajectory models show the area is at a low risk for future exposure to oil. NOAA collected 153 finfish from this area, including commercially and recreationally important species, such as grouper, snapper, tuna, and mahi mahi. Sensory testing showed no detectable oil or dispersant odors or flavors in the samples, and the results of chemical analysis were well below levels of concern.

Map Link:

http://sero.nmfs.noaa.gov/sf/deepwater_horizon/BP_OilSpill_FisheryClosureMap_081010.pdf

The area closed to all fishing now measures 52,395 sq mi (135,703 sq km) and covers about 22% of the Gulf of Mexico exclusive economic zone. All commercial and recreational fishing including catch and release is prohibited in this closed area. Transit through the closed area is allowed. NOAA will continue to evaluate the need for fisheries closures based on the evolving nature of the spill and will re-open closed areas as appropriate.

The re-opened area was originally closed because oil was present in the area; however, no oil has been

NOAA continues to work closely with the U.S. Food and Drug Administration and the states to ensure seafood safety, by closing fishing areas where tainted seafood could potentially be caught, and assessing whether seafood is tainted or contaminated to levels that pose a risk to human health. NOAA and FDA are working together to sample seafood from inside and outside the closure area, as well as dockside- and market-based sampling.

The area closed to all fishing is bounded by rhumb lines connecting, in order, the following coordinates:

North latitude	West longitude
At state/federal line	87° 00'
29° 30'	87° 00'
29° 30'	86° 00'
28° 24'	86° 00'
28° 19'	85° 30'
27° 00'	85° 30'
27° 00'	86° 23'
27° 39'	89° 50'
27° 35'	90° 33'
28° 36'	91° 08'
28° 36'	91° 32'
28° 58'	91° 40'
29° 31'	93° 36'
At the state/federal line	93° 30'
Follow the state/federal water line easterly to beginning point	

The area reopened to finfish harvest only is bounded by rhumb lines connecting, in order, the following coordinates:

North latitude	West longitude
At state/federal line	85° 29'
28° 23'	85° 55'
28° 24'	86° 00'
29° 30'	86° 00'
29° 30'	87° 00'
At the state/federal line	87° 00'
Follow the state/federal water line easterly to beginning point	

Reminders

Modeling and mapping the actual and projected spill

Ways to Receive Closure Information:

- Sign up for Southeast Fishery Bulletins: send an email to: SERO.Communications.Comments@noaa.gov
- Call 1-800-627-NOAA (1-800-627-6622) to hear a recording of the current coordinates (with messages in Spanish and Vietnamese)
- Listen to NOAA Weather Radio for updates
- Sign up for text messages on your cell phone: text **fishing@gulf** to 84469 (for more information, visit <http://www.deepwaterhorizonresponse.com/go/doc/2931/558107>)
- Follow us on Twitter: usnoagov to get a tweet when the closed area changes

area is not an exact science. NOAA Fisheries Service strongly advises fishermen not to fish in areas where oil or oil sheens (very thin layers of floating oil) are present, even if those areas are not currently closed to fishing.

If state waters are closed to fishing due to the oil spill, all vessels must comply with that closure. If state waters are not closed to fishing due to the oil spill, federally permitted vessels may fish in those waters while abiding by all other applicable regulations.

Permit holders are reminded to maintain their federal vessel permits by submitting timely reporting requirements and renewal applications, even if the vessel is not currently engaged in fishing activities.
