Please describe the event at which you will display the whale including description of the audience:

in attendance:

INFLATABLE RIGHT WHALE CALF

The NOAA inflatable right whale calf is 22 ft. in length. The whale includes an internal electric blower that runs continuously while in use; this blower inflates and deflates the whale in minutes.

EDUCATION

The inflatable whale is intended to be an education tool. NOAA Fisheries will provide a pdf of an education/ activity guide to accompany the whale, as well as talking points. We appreciate your efforts in promoting right whale conservation. For more information please visit: <http://rightwhalessouth.nmfs.noaa.gov>.

REQUESTS TO BORROW THE NOAA INFLATABLE RIGHT WHALE

All individuals or organizations requesting to borrow the NOAA inflatable right whale must complete the Inflatable Right Whale Request Form and Borrowing Agreement. Any organization or agency may request to use the whale. Requests will be evaluated based on the following criteria:

1. Date requested/ existing display schedule
2. Purpose and educational value
3. Intended audience
4. Event geographic location
5. Willingness to sign replacement/repair agreement in the event of damage

NOAA SERO reserves the right to refuse any request.
