

disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What action is the Agency taking?

EPA is announcing receipt of a pesticide petition filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, requesting the modification of regulations in 40 CFR part 180 for residues of pesticide chemicals in or on various food commodities. The Agency is taking public comment on the request before responding to the petitioner. EPA is not proposing any particular action at this time. EPA has determined that the pesticide petition described in this document contains data or information prescribed in FFDCA section 408(d)(2), 21 U.S.C. 346a(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data supports granting of the pesticide petition. After considering the public comments, EPA intends to evaluate whether and what action may be warranted. Additional data may be needed before EPA can make a final determination on this pesticide petition.

Pursuant to 40 CFR 180.7(f), a summary of the petition that is the subject of this document, prepared by the petitioner, is included in a docket EPA has created for this rulemaking. The docket for this petition is available at <http://www.regulations.gov>.

As specified in FFDCA section 408(d)(3), 21 U.S.C. 346a(d)(3), EPA is publishing notification of the petition so that the public has an opportunity to comment on this request for the modification of regulations for residues of pesticides in or on food commodities. Further information on the petition may be obtained through the petition summary referenced in this unit.

PP 6F8517. (EPA-HQ-OPP-2016-0639). Tessengerlo Kerley, Inc., 2255 N. 44th St., Suite 300, Phoenix, AZ 85008, requests to amend the tolerance in 40 CFR 180.415 for residues of the fungicide, aluminum tris (*O*-ethylphosphonate), in or on fruit, citrus, group 10 from 5.0 parts per million (ppm) to fruit, citrus, Group 10-10 at 9.0 ppm. Adequate enforcement methodology available in the Pesticide Analytical Manual (PAM II, Method II) is used to measure and evaluate the chemical aluminum tris (*O*-ethylphosphonate). *Contact:* RD.

Authority: 21 U.S.C. 346a.

Dated: November 27, 2017.

Mercury; Reporting Requirements for the TSCA Mercury Inventory; Extension of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; extension of comment period.

SUMMARY: EPA issued a document in the **Federal Register** of October 26, 2017, concerning proposed reporting requirements for applicable persons to provide information to assist in the preparation of an “inventory of mercury supply, use, and trade in the United States.” This document extends the comment period for 16 days, from December 26, 2017 to January 11, 2018. EPA received requests to extend the comment period and believes it is appropriate to do so in order to give stakeholders additional time to assess the impacts of the proposal, review technical documents in the docket, and prepare comments.

DATES: Comments, identified by docket identification number EPA-HQ-OPPT-2017-0421, must be received on or before January 11, 2018.

ADDRESSES: Follow the detailed instructions provided under **ADDRESSES** in the **Federal Register** document of October 26, 2017 (82 FR 49564) (FRL-9970-07).

FOR FURTHER INFORMATION CONTACT:

For technical information contact: Thomas Groeneveld, National Program Chemicals Division, Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460-0001; telephone number: (202) 566-1188; email address: groeneveld.thomas@epa.gov.

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: TSCA-Hotline@epa.gov.

SUPPLEMENTARY INFORMATION: This document extends the public comment

period established in the **Federal Register** document of October 26, 2017 (82 FR 49564) (FRL-9970-07). EPA is hereby extending the comment period, which was set to end on December 26, 2017, to January 11, 2018.

To submit comments, or access the docket, please follow the detailed instructions provided under **ADDRESSES** in the **Federal Register** document of October 26, 2017 (82 FR 49564) (FRL-9970-07). If you have questions, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

National Oceanic and Atmospheric Administration

50 CFR Part 622

RIN 0648-BH07

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Vermilion Snapper Management Measures; Amendment 47

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability; request for comments.

SUMMARY: The Gulf of Mexico (Gulf) Fishery Management Council (Council) has submitted Amendment 47 to the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP), for review, approval, and implementation by NMFS. Amendment 47 would establish a proxy for the estimate of the stock maximum sustainable yield (MSY) and revise the stock annual catch limit (ACL) for Gulf vermilion snapper. The purpose of Amendment 47 is to ensure that the MSY and ACL values for vermilion snapper are consistent with the results of the most recent stock assessment.

DATES: Written comments must be received on or before February 20, 2018.

ADDRESSES: You may submit comments on the amendment identified by “NOAA–NMFS–2017–0106” by either of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to www.regulations.gov/#!docketDetail;D=NOAA-NMFS-2017-0106, click the “Comment Now!” icon, complete the required fields, and enter or attach your comments.

- **Mail:** Submit written comments to Lauren Waters, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “N/A” in the required fields if you wish to remain anonymous).

Electronic copies of Amendment 47, which includes an environmental assessment, a fishery impact statement, a Regulatory Flexibility Act analysis, and a regulatory impact review, may be obtained from the Southeast Regional Office website at: http://sero.nmfs.noaa.gov/sustainable_fisheries/gulf_fisheries/reef_fish/2017/am47/docs/PDFs/gulf_reef_am47_vermilion_final.pdf.

FOR FURTHER INFORMATION CONTACT: Lauren Waters, Southeast Regional Office, NMFS, telephone: 727–824–5305; email: Lauren.Waters@noaa.gov.

SUPPLEMENTARY INFORMATION: The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) requires each regional fishery management council to submit any FMP or amendment to NMFS for review and approval, partial approval, or disapproval. The Magnuson-Stevens Act also requires that NMFS, upon receiving an FMP or amendment, publish an announcement in the **Federal Register** notifying the public that the FMP or amendment is available for review and comment.

The FMP being revised by Amendment 47 was prepared by the Council and implemented by NMFS through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Act.

Background

The Magnuson-Stevens Act requires the Council to specify the MSY for managed stocks. The National Standard 1 Guidelines state that the Council should adopt a reasonable proxy for MSY if data are insufficient to estimate MSY directly.

Status of the Vermilion Snapper Stock

Amendment 23 to the FMP established MSY for vermilion snapper as the yield associated with F_{MSY} when the stock is at equilibrium, where F is defined as fishing mortality (70 FR 109; June 8, 2005). The final rule for the Generic Annual Catch Limit (ACL) and Accountability Measures (AM) Amendment established the vermilion snapper stock ACL and set it equal to the ABC at 3.42 million lb (1.55 million kg), round weight (76 FR 82044, December 29, 2011).

In 2016, a standard assessment for vermilion snapper was conducted (SEDAR 45) and the stock status was evaluated using several MSY proxies. Under all proxies evaluated in SEDAR 45, overfishing was not occurring and the stock was not overfished. The Council’s Scientific and Statistical Committee (SSC) determined that the most appropriate proxy for MSY is the yield when fishing at a mortality rate corresponding to 30 percent spawning potential ratio ($F_{30\%}$ SPR).

SEDAR 45 also included projections for the overfishing limit and the ABC. The SSC provided the Council two recommendations for ABC: One that is derived from fishing at 75 percent of the MSY proxy ($F_{30\%}$ SPR) and results in a declining ABC from 2017 through 2021, and one that is derived using the average of 2017–2021 ABCs and results in a constant ABC. The two ABC recommendations are equivalent in terms of maintaining the stock status and the Council selected the constant catch scenario that yielded an ABC of 3.11 million lb (1.41 million kg).

Actions Contained in Amendment 47

Amendment 47 includes measures to establish a proxy for the estimate of the stock MSY and revise the stock ACL for Gulf vermilion snapper consistent with the results of SEDAR 45 and the SSC’s new ABC recommendation.

MSY Proxy

For vermilion snapper, the Council’s SSC recommended that a proxy be used for MSY. The Council’s SSC recommended $F_{30\%}$ SPR as the MSY proxy for SEDAR 45, and the Council agreed. Under this proxy, the stock is not overfished or undergoing overfishing.

Stock ACL

The current ACL of 3.42 million lb (1.55 million kg), round weight, exceeds the ABCs recommended by the Council’s SSC. Therefore, the Council determined that the ACL for vermilion snapper should be decreased to equal the constant catch ABC and Amendment 47 would set the stock ACL at 3.11 million lb (1.41 million kg), round weight.

The current accountability measures for vermilion snapper require NMFS to close the commercial and recreational fishing seasons if the combined commercial and recreational landings reach or are projected to reach the stock ACL. Since 2013, combined landings have been less than 3.00 million lb (1.36 million kg), round weight, every year. Therefore, NMFS does not expect the combined landings of vermilion snapper to reach the proposed stock ACL and result in a closure before the end of the fishing year.

Proposed Rule for Amendment 47

A proposed rule that would implement Amendment 47 has been drafted. In accordance with the Magnuson-Stevens Act, NMFS is evaluating the proposed rule to determine whether it is consistent with the FMP, the Magnuson-Stevens Act, and other applicable law. If that determination is affirmative, NMFS will publish the proposed rule in the **Federal Register** for public review and comment.

Consideration of Public Comments

The Council has submitted Amendment 47 for Secretarial review, approval, and implementation. Comments on Amendment 47 must be received by February 20, 2018. Comments received during the respective comment periods, whether specifically directed to Amendment 47 or the proposed rule, will be considered by NMFS in its decision to approve, partially approve, or disapprove Amendment 47 and will be addressed in the final rule.

All comments received by NMFS on Amendment 47 or the proposed rule during their respective comment periods will be addressed in the final rule.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: December 14, 2017.

Alan D. Risenhoover,
Director, Office of Sustainable Fisheries,
National Marine Fisheries Service.
