DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 642

[Docket No. 90637-9166]

Coastal Migratory Pelagic Resources of the Gulf of Mexico and South Atlantic

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Final rule.

SUMMARY: The Secretary of Commerce changes the total allowable catch (TAC), allocations, and quotas for the Atlantic and Gulf of Mexico migratory groups of king and Spanish mackerel in accordance with the framework procedure of the Fishery Management Plan for the Coastal Migratory Pelagic Resources (FMP). This notice (1) for Gulf and Atlantic migratory groups of king mackerel, increases TAC, allocations, and quotas; and (2) for Gulf and Atlantic migratory groups of Spanish mackerel, increases TAC and allocations. The intended effects are to protect the mackerels and continue stock rebuilding programs while still allowing catch by the important recreational and commercial fisheries that are dependent on these species.

EFFECTIVE DATE: July 1, 1989.

FOR FURTHER INFORMATION CONTACT: Mark F. Godcharles, 813-893-3722.

SUPPLEMENTARY INFORMATION: The king and Spanish mackerel fisheries are regulated under the FMP, which was prepared and amended jointly by the Gulf of Mexico and South Atlantic Fishery Management Councils (Councils), and its implementing regulations at 50 CFR Part 642.

In accordance with the FMP and its implementing regulations, the Councils recommended and NOAA published a proposed rule containing changes in TACs, allocations, and quotas for king and Spanish mackerel for the 1989/90 fishing year (54 FR 24920, June 12, 1989). That notice (1) described the framework procedures of the FMP through which the Councils recommended changes in TACs, allocations, and quotas; (2) specified the recommended changes; and (3) described the need and rationale for the recommended changes. Those descriptions are not repeated here; the specifications implemented by this final rule are the same as those in the proposed rule. No comments were received on the proposed rule.

NOAA concurs that the Councils' recommendations are necessary to protect the stocks and prevent overfishing and that they are consistent with the goals and objectives of the FMP. In addition, they are consistent with the Magnuson Act and other applicable law. Accordingly, the Councils' recommended changes are implemented.

Amendment 4 to the FMP proposes to reallocate Atlantic migratory group Spanish mackerel between commercial and recreational users. A proposed rule to implement Amendment 4 was published in the Federal Register on June 16, 1989 (54 FR 25593). If Amendment 4 is approved and implemented during the 1989/90 fishing year, further changes will be made to

the commercial and recreational allocations for Atlantic group Spanish mackerel, contained in 50 CFR 642.21 paragraphs (c)(2) and (d)(2).

Other Matters

This action is authorized by 50 CFR 642.27, and complies with E.O. 12291.
